

Complaint Regarding Online Educational Fraud, Financial Cheating, Forgery of Documents, and Criminal Breach of Trust

To,
The Director,
Federal Investigation Agency (FIA)
Cyber Crime Wing, Pakistan

Subject: Complaint Against an Individual for Educational Scam, Financial Fraud, Forgery, and Misappropriation of Funds.

Respected Sir/Madam,

I respectfully submit this complaint to request legal action against an individual who is currently studying in Chinese University and claimed that he could secure my admission to a Chinese university along with a fully funded JW Scholarship. Through false promises, fabricated information, misleading statements, and forged documents, he fraudulently obtained a total amount of **Rs. 209,120** from me and has neither fulfilled his commitments nor refunded my money despite repeated requests.

The events occurred in the following sequence:

I had already taken admission here in a university and was in my **2nd Semester**, though now I've completed my **4 Semesters** till now. At the beginning of our communication, the accused assured me that there was no financial risk involved and repeatedly stated that **if my admission or scholarship process was unsuccessful, my entire payment would be refunded**. These assurances convinced me to proceed with the application process.

At that time, I was already enrolled in a university in Pakistan and was studying in my **second semester**. Based on his representations, I decided to pursue higher education opportunities in China.

The accused instructed me to collect all the required academic and personal documents and send scanned PDF copies so that he could apply to various universities on my behalf. Following his instructions, I submitted all the requested documents to him on **22nd July 2025**.

After reviewing my documents, the accused informed me that everything was complete and satisfactory. He then instructed me to transfer **Rs. 120,000** as the application and processing fee. Relying on his assurances and promises, I transferred **Rs. 120,000** to him on **23rd July 2025**.

Immediately after receiving the payment, the accused became largely unresponsive. For several days, he provided no updates regarding my university applications, admission

process, or any progress whatsoever. Whenever I contacted him, he either ignored my messages or gave vague and delaying responses.

After repeated follow-ups from my side over the following weeks, the accused continued making excuses instead of providing any evidence that my applications had actually been submitted. Eventually, on **28th September 2025**, the accused provided me with what he claimed was an official admission letter and demanded an additional **Rs. 60,000**, claiming that it was required to complete my admission process. Believing the admission letter and his statements, I transferred the requested amount.

After receiving the additional payment, the accused informed me that my admission had been successfully secured. However, despite claiming that my admission had been completed, he failed to provide any authentic proof such as official university correspondence, application records, transcripts, or any verifiable confirmation from the university. This significantly increased my suspicions.

To verify the admission letter authenticity, I contacted the concerned university directly using the official contact information mentioned on the document. The university officially informed me that **they had never issued such an admission letter and had not received any application or admission record in my name**. This confirmed that the admission letter provided by the accused was fraudulent and fabricated.

The accused had also repeatedly assured me that after my admission, I would soon receive the **JW Scholarship**, which he described as a **fully funded scholarship providing tuition coverage along with a monthly stipend**. Despite his repeated assurances, no scholarship was ever issued.

Having completely lost confidence in his claims, I requested a full refund of my **Rs. 180,000** on **3rd December 2025**, as he had initially promised. However, instead of responding, he ignored my message entirely and did not even acknowledge my request.

Several weeks later, the accused contacted me again and introduced a completely new requirement. He claimed that a **CSCA test** had become mandatory for obtaining the JW Scholarship and stated that I would have to appear in this examination before my scholarship could be issued. He demanded an additional **Rs. 29,120** as the registration fee and also requested my personal email address so that he could register me for the examination.

Because of my growing suspicions, I refused to transfer any additional money without proof. The accused then claimed that he had already paid the registration fee from his own pocket and that I only needed to reimburse him. To support his claim, he sent me a screenshot of what appeared to be an email from CSCA confirming my registration.

Believing the screenshot to be genuine, I transferred **Rs. 29,120** to him on **8th January 2026**.

The accused informed me that CSCA would shortly send my examination details and roll number slip directly to my personal email address. However, I never received any email, examination schedule, or registration confirmation from CSCA.

When I repeatedly requested my CSCA portal login credentials and official registration details, the accused once again ignored my messages and stopped responding. Upon carefully examining the screenshot he had previously sent, I discovered clear indications that it had been digitally edited and manipulated.

Furthermore, the accused repeatedly changed his statements regarding the examination process. Initially, he informed me that the CSCA examination would be conducted **online from home**. Later, he claimed that the examination would instead be held at a **testing center in Islamabad**. After several more weeks when the test date missed which was **25th January 2026**, he changed his statement once again and informed me that the examination would actually be conducted **in China after my arrival there**, while simultaneously asking me to provide transcripts from my current university semesters. These repeated contradictions further confirmed that his claims were false and intentionally misleading.

Having realized that I had been deceived, I demanded the immediate return of my entire payment of **Rs. 209,120** on **22nd March 2026**. Once again, the accused ignored my messages for several weeks and refused to communicate.

After several months, he finally responded by claiming that he had asked a professor to submit an application for my refund. However, he failed to provide any documentary proof or evidence that such a refund request had actually been submitted.

When I informed him that I intended to report this matter to the Federal Investigation Agency (FIA), his response was simply that **I could do whatever I wanted**, demonstrating complete disregard for my legitimate concerns and refund request.

As of **21st July 2026**, the accused has neither refunded my money nor provided any evidence supporting his previous claims. He has once again ceased all meaningful communication and continues to ignore my messages.

Through false representations, forged documents, fabricated admission records, misleading promises regarding a fully funded scholarship, manipulated evidence, and repeated deception, the accused fraudulently obtained a total of **Rs. 209,120** from me. His conduct has caused me substantial financial loss, emotional distress, and the loss of valuable educational opportunities.

I respectfully request the Federal Investigation Agency to investigate this matter thoroughly, examine all available digital evidence, including payment records, bank transaction receipts, chat histories, emails, screenshots, and other supporting documents, initiate appropriate legal proceedings against the accused under the applicable laws of Pakistan, recover my fraudulently obtained funds, and prevent the accused from deceiving other students through similar fraudulent schemes.

I affirm that all statements made in this complaint are true and accurate to the best of my knowledge and belief, and I am prepared to provide all documentary evidence and fully cooperate with the investigation whenever required.

Yours faithfully,
